Grocery Store Inventory Management
Sprint #2: Meeting Minutes

1. Sprint Retrospective:

Alejandro Garcia	Began designing a rough draft of the ER diagram and created a structure for the github repo.
Blake Montgomery	Started breaking down roles on projects and tackle first problems and milestones for the project, set a date for the next meeting. Drafted possible queries to test dataset
Arpita Misal	Started deciding on the design aspect of the project and discuss the implementation requirements
Jasleen Narang	Worked on ER diagram, added more ideas to the group project
Bhavya Vatsavayi	Made rough drafts of the final report and the entities, relationships, and attributes for the ER diagram.

Look-ahead:

Alejandro Garcia	Begin coding the front-end components for inventory and product management.
Blake Montgomery	Prepare sample data and run test cases on database queries for optimization.
Arpita Misal	Work on database indexing.
Jasleen Narang	Ensure database constraints are implemented (e.g., foreign keys, data validation).
Bhavya Vatsavayi	Collaborate with the front-end team to test cases for inventory and product management.

SCRUM Master: Arpita Misal
